## SCL*Intra* Enterprise for Pocket PC
SCLogic, LLC

SCLogic is pleased to announce the availability of SCL*Intra* Enterprise on the Pocket PC family of devices. Mobile users will have a range of rugged devices to choose from to fit their operation. SCLogic's mobile client will run on the virtually any PDA style handheld – touch-screen or keyboard style – including Symbol Technologies PPT8800 and MC9000. SCL*Intra* mobile users now have real time portable connection options, both within the campus (802.11b), and roaming (GPRS and CDMA). Because SCLogic is a leading reseller of Symbol Technologies portable data collection technology and wireless communication, the new Pocket PC software features advances never before available in accountable package solutions.

### Benefits Snapshot

| | |
|---|---|
| **Live Pick Up Notification** | Instantly receive pick up notification and messages. On-the-fly packages can be delivered during the current route, saving time. |
| **Live Manifest Update** | Updates are immediately sent to the database and available for queries - no more waiting to return to the mailroom to sync the data. |
| **Security** | Stronger and more flexible security features, plus failsafe data retention. |
| **DID WE MENTION…?** | Your IT Department will rejoice in the IT-friendly and IT-preferred Windows Mobile 2003™ for Pocket PC operating system. |

### Other Features

- Small and lightweight - fits in a pocket or on the hip
- Faster sync times
- More memory for increased data storage
- Large vibrant color display - easy to see in many environments
- Extremely rugged - endures extreme temperatures and multiple drops to concrete. 1D laser bar code scanning - captures information accurately with RSS support every time
- Rechargeable/replaceable lithium-ion battery - maximum usage between charges increases mobile worker efficiency

### About SCLogic, LLC

SCLogic develops, sells and supports the inbound receiving and tracking system, SCL*Intra*. SCL*Intra* uses barcoding technology to monitor and control the flow of tangible objects – mail, parcels, property, files or people – as they enter and move through a facility. SCL*Intra* is an affordable, flexible, IT-friendly solution that improves productivity by automating receiving, sorting and delivery processes while expanding tracking visibility across the corporate Intranet and beyond. SCLogic's accountable item solutions are licensed to hundreds of customers throughout the country.
